12	HCV Treatment in Corrections
14	Enduring Collaborative Networks
17	5 Improving Viral Hepatitis Surveillance and Data Usage

INTRODUCTION

This list is meant to serve as a resource for state officials, advocates, and other stakeholders interested in understanding how to reform their jurisdiction's laws, policies, and practices to best implement and support viral hepatitis elimination efforts. This list of resources includes national, state, and local resources, as well as examples of programs, policies, and legislation that some states have already implemented in support of viral hepatitis elimination goals. These resources were selected to align with the Hep Elimination Capacity Rubric. After reviewing your own jurisdiction's grade and score for each indicator on the [Hep Elimination website](#), we encourage you to explore the resources included below that correspond with the indicators that you would like to improve for your jurisdiction.

Unless otherwise indicated, this is not a comprehensive list of all current jurisdictional initiatives and resources available on these topics. The resources listed were also not developed by Hep Elimination. If you have any questions about a specific resource, please contact the relevant authors and agencies. If you would like to contribute to this list, please contact Sonia Canzater at sc1574@georgetown.edu.

Important National Resources

- [CDC HCV Elimination Plan Guide \(2021\)](#)
- [Syringe Services Programs: A Technical Package of Effective Strategies and Approaches for Planning, Design, and Implementation \(CDC, 2020\)](#)
- [Syringe Services Programs: Summary of State Laws \(LAPPA, 2021\)](#)
- [Model Syringe Services Program Act \(LAPPA, 2021\)](#)
- [Know More Hepatitis \(CDC, 2021\)](#)
- [Hepatitis B Online \(Hepatitis B Foundation, 2020\)](#)
- [Hepatitis C Online \(University of Washington Infectious Diseases Education and Assessment Program\)](#)
- [HCV Guidance: Recommendation for Testing, Managing, and Treating Hepatitis C \(American Association for the Study of Liver Diseases & Infectious Diseases Society of America\)](#)

1. STATE VIRAL HEPATITIS ELIMINATION PLAN DEVELOPMENT

The HHS Viral Hepatitis National Strategic Plan encourages states and local jurisdictions to develop plans to prevent and respond to viral hepatitis in their communities. The resources below have been provided to assist jurisdictions in developing their own viral hepatitis elimination plans (if they have not done so already) or updating their plans to ensure that they are in line with current best practices. Section A – “Guiding Documents and National Resources” – can help guide the elimination plan drafting process. These include resources about the current state of the epidemic and programmatic initiatives that jurisdictions can adopt to address its impact. Section B – “Jurisdictions’ Viral Hepatitis Elimination Plans” – provides examples of current state hepatitis elimination plans. The elimination plans highlighted in this section are a comprehensive list of all current state-level elimination strategies and several include examples of best practices and innovative solutions to address the epidemic.

A. Guidance Documents and National Resources

- 1) [CDC HCV Elimination Plan Guide \(2021\)](#)
- 2) [The Community Response to Viral Hepatitis \(2016\)](#)—Report from the HHS Office of Infectious Disease Policy summarizing strategies community organizations utilized to achieve the goals of the National Viral Hepatitis Action Plan
- 3) [Mapping Hepatitis Elimination Projects in the United States](#)—HHS map of current elimination projects across the nation
- 4) [CDC List of Resources for State, Local, Tribal and Territorial Health Departments](#)
- 5) [Developing an elimination plan: core components and establishing achievable targets \(NASTAD, 2021\)](#)
- 6) [Engaging People with Lived Experience Toolkit \(Community Commons, 2019\)](#)
- 7) [Nothing About Us Without Us: The Importance of Centering the Voices of Patient Advocates in the Public Health Response to Viral Hepatitis \(NASTAD, 2019\)](#)
- 8) [Methods and Emerging Strategies to Engage People with Lived Experience—Improving Federal Research, Policy, and Practice \(ASPE—HHS, 2021\)](#)

1. STATE VIRAL HEPATITIS ELIMINATION PLAN DEVELOPMENT**B. Jurisdictions' Viral Hepatitis Elimination Plans**

- 1) [Hepatitis C Elimination Strategy for AI/AN Communities \(Northwest Portland Area Indian Health Board, 2019\)](#)
- 2) [Ending the Epidemics: Integrated Statewide Strategic Plan Overview, 2022-2026 \(California\)](#)
- 3) [Hep Free 2030: The Hawaii Hepatitis Elimination Strategy 2020-2030](#)
- 4) [Zero Is Possible: Indiana's Plan to End HIV and HCV \(2021-2030\)](#)
- 5) [Iowa Department of Public Health 2017-2021 Iowa Hepatitis Action Plan](#)
- 6) [Louisiana Hepatitis C Elimination Plan: 2019-2024](#)
- 7) [Maryland Hepatitis C Strategic Plan \(2019\)](#)
- 8) [Michigan's State Plan on Eliminating Hepatitis C \(2021\)](#)
- 9) [Missouri Hepatitis C Elimination Plan 2022-26: Show Me The Cure](#)
- 10) [Pennsylvania Viral Hepatitis Elimination Plan \(2022\)](#)
- 11) [Plan to Eliminate Viral Hepatitis as a Major Public Health Threat in New York City by 2030 \(NYC, 2021\)](#)
- 12) [North Carolina Comprehensive Response Recommendations \(2022\)](#)
- 13) [New York State Viral Hepatitis Strategic Plan, 2020](#)
- 14) [Rhode Island Hepatitis C Elimination Plan, 2023-2027](#)
- 15) [2022 State Plan for Hepatitis C \(Texas\)](#)
- 16) [Hep C Free Washington: Plan to Eliminate Hepatitis C in Washington State by 2030 \(2019\)](#)

2. HARM REDUCTION LAWS AND STRATEGIES

Jurisdictions' laws and policies that implement and support harm reduction strategies are a critical tool to reduce viral hepatitis transmission. Officials and advocates who are interested in making changes to their own jurisdictions' laws can use these resources to shape new harm reduction legislation. Section A – “National Harm Reduction Law and Policy Resources” – provides an overview of existing harm reduction legislation and policy considerations, including national trends and best practices. Section B – “Jurisdictional Resources” – provides curated examples of state-level harm reduction initiatives.

A. National Harm Reduction Law and Policy Resources

- 1) [Syringe Services Programs: Summary of State Laws \(LAPPA, 2021\)](#)
- 2) [Good Samaritan Overdose Prevention Laws \(Prescription Drug Abuse Policy System, 2021\)](#)—List of state laws
- 3) [State Approaches to Addressing the Infectious Disease Consequences of the Opioid Epidemic \(National Governors Association, 2019\)](#)
- 4) Law Atlas—Database of state laws relating to:
 - a. [Syringe Service Program Laws \(2019\)](#)
- 5) Research and Evidence to Support Legalization of Syringe Service Programs:
 - a. [Safety and Effectiveness Summary of Syringe Service Programs \(SSPs\) \(CDC, 2019\)](#)
 - b. [Peer Reviewed Research About Syringe Service Programs \(Washington State Department of Health, 2019\)](#)
- 6) [Syringe Service Program Locations](#)—Map maintained by the North American Syringe Exchange Network (NASEN)
- 7) [Syringe Services Programs: A Technical package of Effective Strategies and Approaches for Planning, Design, and Implementation \(CDC, 2020\)](#)
- 8) [Model Syringe Services Program Act \(LAPPA, 2021\)](#)
- 9) [Syringe Services Programs Communications Toolkit \(CDC, 2022\)](#)

2. HARM REDUCTION LAWS AND STRATEGIES**B. Jurisdictional Resources**

- 1) [Naloxone Vending Machines—Initiatives Across Indiana, Michigan, Nevada, Ohio, and Rhode Island \(Wayne State University—Center for Behavioral Health and Justice, 2021\)](#)
- 2) [New York City Department of Health Feasibility Study on Supervised Injection Sites \(2017\)—Findings from study conducted by NYC as part of the planning process to implement SIS](#)
- 3) [New York Plans to Install ‘Vending Machines’ With Anti-Overdose Drugs \(The New York Times, 2022\)](#)
- 4) [The First Supervised Safe Sites for Drug Use Open in New York City \(Press Herald, 2021\)](#)

3. BUDGET ALLOCATION

The state budget is a critically important tool to help support viral hepatitis elimination efforts. The resources in this section provide tools to help state officials determine appropriate levels of funding for viral hepatitis elimination efforts. In addition to addressing budget allocations, we also include a resource on ways to fund harm reduction strategies through other funding sources.

A. Guidance Documents and National Resources

- 1) [Cost-effectiveness of Total State Coverage for Hepatitis C Medications \(American Journal of Managed Care, 2021\)](#)
- 2) [Hepatitis C Testing and Treatment Calculator](#)
- 3) [National Viral Hepatitis Elimination Budgeting and Strategy Template \(World Hepatitis Alliance, 2022\)](#)
- 4) [Navigating the Harm Reduction Funding Landscape—A Guide for State, Federal, and Private Funding \(NASTAD\)](#)

4. IMPROVING VIRAL HEPATITIS PREVENTION, TREATMENT, AND OUTCOMES

To fully address the viral hepatitis epidemic, officials and community advocates must use a variety of tools, including prevention initiatives, constituent education, provider training, improved access to health care through Medicaid and within correctional systems, coalition-building efforts, and more. The resources in this section provide jurisdiction-specific examples of some of these efforts as well as ready-to-use educational and training resources. To the extent that the jurisdiction-specific lists include examples of existing programs and policies, Hep Elimination recognizes that although some specific jurisdictions' policies do align with the rubric and bring the jurisdiction closer to elimination, they are still not perfect.

Please note that almost all of the sub-sections below are tailored to include a curated list of resources and existing programs and should not be considered comprehensive. However, the sub-section titled "Enduring Collaborative Networks" is a comprehensive list of all of the jurisdictional and local coalitions and collaborative networks of which Hep Elimination is aware of so that stakeholders can easily connect with others in their communities already engaged in viral hepatitis work.

TESTING, PREVENTION, AND TREATMENT TOOLKITS

A. Guidance Documents and National Resources

- 1) [Hep C Community Navigation Model and Toolkit \(NASTAD, 2020\)](#)
- 2) [Hepatitis Network for Education and Testing \(HepNET\) \(NASTAD, NACCHO, and NVHR, 2022\)](#)
- 3) [Viral Hepatitis Prevention and Surveillance Virtual Learning Collaborative \(VLC\) \(NASTAD, 2022\)](#)

B. Jurisdictional Resources

- 1) [Florida Hepatitis Linkage to Care and Treatment Toolkit \(2021\)](#)
- 2) [Indiana Hepatitis C Testing Toolkit \(2018\)](#)
- 3) [West Virginia Hepatitis A Toolkit for Homeless Service Providers \(2018\)](#)
- 4) [Hep C Community Navigation Model and Toolkit \(NASTAD, 2020\)](#)

4. IMPROVING VIRAL HEPATITIS PREVENTION, TREATMENT, AND OUTCOMES**VIRAL HEPATITIS EDUCATIONAL INFORMATION****A. Guidance Documents and National Resources**

- 1) [Know More Hepatitis \(CDC, 2021\)](#)
- 2) [National Hispanic Hepatitis Awareness Day \(Resources in Spanish\)](#)
- 3) [Hepatitis B Fact Sheets \(Hepatitis B Foundation, 2021\)](#)

PERINATAL VIRAL HEPATITIS**A. Guidance Documents and National Resources**

- 1) [HBV Perinatal Transmission \(CDC, 2022\)](#)
- 2) [Perinatal HCV Transmission \(University of Washington, 2021\)](#)
- 3) [Protect Your Baby for Life—When a Pregnant Woman Has Hepatitis B \(CDC/HHS, 2020\)](#)
- 4) [Recommendations for Testing, Managing, and Treating HCV in Pregnancy \(American Association for the Study of Liver Diseases, 2020\)](#)
- 5) [Practice Advisory: Routine Hepatitis C Virus Screening in Pregnant Individuals \(ACOG, 2021\)](#)

B. Jurisdictional Resources

- 1) **Arizona**
 - a. [Arizona Department of Health Services 2018 Perinatal Hepatitis B Prevention Program Manual](#)
- 2) **California**
 - a. [California Perinatal Hepatitis B Prevention Program \(2022\)](#)
 - b. [California Perinatal Hepatitis C Public Health Investigation Protocol \(2021\)](#)
- 3) **Georgia**
 - a. [Georgia Perinatal Hepatitis B \(2022\)](#)
 - b. [Georgia Perinatal Hepatitis C \(2021\)](#)
- 4) **Indiana**
 - a. [Indiana Perinatal Infection Prevention Program](#)

4. IMPROVING VIRAL HEPATITIS PREVENTION, TREATMENT, AND OUTCOMES

- 5) **Michigan**
 - a. Michigan Perinatal Hepatitis B Program Manual (2021)
 - b. Michigan Perinatal HCV Surveillance Tool Kit
- 6) **New Jersey**
 - a. New Jersey Hepatitis B—Perinatal (2021)
 - b. New Jersey Hepatitis C (Acute, Chronic, Perinatal) (2021)

MEDICAID EXPANSION AND MEDICAID TREATMENT ACCESS

Resources on existing and proposed strategies to utilize Medicaid to improve access to viral hepatitis testing and treatment

A. Guidance Documents

- 1) **Hepatitis C: State of Medicaid Access (National Viral Hepatitis Roundtable & Center for Health Law and Policy Innovation, 2022)** – Hepatitis C: State of Medicaid Access provides information about Medicaid policies around hepatitis C treatment access across each of the 50 states, as well as Washington, DC and Puerto Rico
- 2) **Status of State Medicaid Expansion Decisions: Interactive Map (Kaiser Family Foundation, 2022)**

ALTERNATIVE PAYMENT OPTIONS**A. Guidance Documents**

- 1) **Innovative Payment Models: An Analysis of the Promise and Practice of Novel Hepatitis C Medication Procurement Strategies in the U.S. (O’Neill Institute, 2021)**
- 2) **340B for Viral Hepatitis Programs: 340B Drug Pricing Program Guidance & Webinar Series (NASTAD, 2022)**

B. Jurisdictional Resources

- 1) **Louisiana launches hepatitis C innovative payment model with Asegua Therapeutics, aiming to eliminate the disease (Louisiana DOH, 2019)**
- 2) **Louisiana DAA Purchasing Solicitation for Offers (2019)**
- 3) **Missouri HealthNet’s Project Hep Cure**

4. IMPROVING VIRAL HEPATITIS PREVENTION, TREATMENT, AND OUTCOMES

- 4) [Texas DAA Bulk Purchasing Feasibility Assessment \(2020-2021\)](#)
- 5) [Washington Hepatitis C Medications Comprehensive Purchasing Strategies](#)

REFLEX TESTING

Resources on how to implement reflex testing for HCV

A. Guidance Documents and National Resources

- 1) [Optimizing HCV Linkage to Care: Experiences Implementing Laboratory-Based Reflex Testing \(Coalition for Global Hepatitis Elimination, 2022\)](#)

B. Research Articles

- 1) [Significant Improvement in Diagnosis of Hepatitis C Virus Infection by a One-Step Strategy in a Clinical Laboratory: An Optimal Tool for Hepatitis C Elimination? \(Journal of Clinical Microbiology, 2019\)](#)

PROVIDER TRAINING**A. Guidance Documents and National Resources**

- 1) [AIDS Education and Training Center Program HCV Toolkit Curriculum \(2021\)](#)
- 2) [HCV Current Initiative \(Addiction Technology Transfer Center Network, 2020\)](#)
- 3) [CDC Training Resources and Online Training Opportunities \(CDC, 2020\)](#)
- 4) [Hep B United HBV Provider Training Resources](#)
- 5) [Hepatitis B Online \(Hepatitis B Foundation, 2020\)](#)
- 6) [Project ECHO \(University of New Mexico\)](#)
- 7) [Hepatitis C Online \(University of Washington Infectious Diseases Education and Assessment Program\)](#)
- 8) [National Association of County & City Health Officials Hepatitis C and Local Health Department Educational Series](#)
- 9) [Hepatitis C Public Health Detailing Kit \(NACCHO, 2017\)](#)

4. IMPROVING VIRAL HEPATITIS PREVENTION, TREATMENT, AND OUTCOMES

- 10) **HCV Guidance: Recommendations for Testing, Managing, and Treating Hepatitis C (American Association for the Study of Liver Diseases & Infectious Diseases Society of America)**
- 11) **I'll B There: Hepatitis B In Our Community Toolkit (Asian Health Foundation)**

B. Jurisdictional Resources

- 1) States Using a Project ECHO Provider Training Curricula
 - i. **Arizona**
 - ii. **California**
 - iii. **Georgia**
 - iv. **Hawaii**
 - v. **Idaho**
 - vi. **Indiana**
 - vii. **Iowa**
 - viii. **Louisiana**
 - ix. **Michigan**
 - x. **Mississippi**
 - xi. **New Mexico**
 - xii. **Virginia**
- 2) States Using Other Provider Training Curricula
 - i. **Connecticut**—Basics for Health Professionals
 - ii. **Florida**—Hepatitis 101: An Introduction to Hepatitis A, B, and C accessible through TRAIN Florida
 - iii. **Maryland**—Sharing the Cure clinical training program
 - iv. **New York**—The New York State Department of Health AIDS Institute's **Guidelines for Providers on Treatment of Chronic HCV with Direct-Acting Antivirals (2020)**, New York State Department of Health AIDS Institute's **Clinical Education Initiative (2022)**, and NYC Health Department Hepatitis Training Guide (2022)
 - v. **North Carolina**—Carolina Hepatitis C Academic Mentoring Program (CHAMP) (2019)
 - vi. **South Carolina**—Southeast AIDS Education & Training Center Program: Hepatitis C (HCV) Toolkit Curriculum (2021)

4. IMPROVING VIRAL HEPATITIS PREVENTION, TREATMENT, AND OUTCOMES

- vii. **Washington—Washington State Department of Health: Provider Information; Washington State Health Care Authority: Eliminating hepatitis C**

HCV TREATMENT IN CORRECTIONS

A. Guidance Documents and National Resources

- 1) **Hepatitis A Clinical Guidance (Federal Bureau of Prisons, 2019)**
- 2) **Clinical Guidance on Evaluation and Management of Hepatitis C Virus (HCV) Infection (Federal Bureau of Prisons, 2021)**
- 3) **Recommendations for HCV Testing and Treatment in Correctional Settings (AASLD/ISDA, 2019)**
- 4) **HepCorrections**
- 5) **HCV in Jails and Prisons (National Hepatitis Corrections Network)**
- 6) **A Framework for Management of Hepatitis C in Prisons (Annals of Internal Medicine, 2016)**

B. Jurisdictional Policies

Examples of state policies that provide universal, opt-out testing for HCV in corrections. Note: many of these states deny immediate treatment to incarcerated individuals based on their sentence length and could further improve their policies by providing immediate treatment and linkage to care in the community.

- 1) **Arizona—Arizona Department of Corrections, Rehabilitation & Reentry (2021)**—While Arizona corrections does follow a prioritization scheme that considers severity of liver damage to determine HCV treatment eligibility, their guidelines require all incarcerated persons with a confirmed HCV diagnosis to receive HAV, HBV, and pneumococcal vaccinations. This standard practice can aid in dramatically reducing the transmission of vaccine-preventable viral hepatitis.
- 2) **California—California Correctional Health Care Services Care Guide: Hepatitis C (2021)**—California’s HCV care policy for corrections focuses on identifying and treating all cases of HCV in state corrections in alignment with the AASLD/IDSA guidelines. It also outlines a policy for screening for and vaccinating against HAV, HBV, and other vaccine-preventable illnesses.

4. IMPROVING VIRAL HEPATITIS PREVENTION, TREATMENT, AND OUTCOMES

- 3) **Maine—Department of Corrections: Management and Treatment of Hepatitis C Policy (2021)**—Maine’s policy expressly states that evidence of current illegal intravenous drug use shall not automatically preclude someone from receiving HCV treatment.
- 4) **Vermont—Vermont Department of Corrections Health Services Policy and Procedure: Hepatitis C Virus Treatment Program (2021)**—Vermont’s policy retests all negative persons in their correctional facilities for HCV every 6 months. Their policy also outlines a plan to screen those in pre-trial detention and link them to follow-up care in the community.

ENDURING COLLABORATIVE NETWORKS**A. Guidance Documents and National Resources**

- 1) **Building or Enhancing a Coalition to Eliminate Viral Hepatitis, Part 1 (NASTAD, 2021)**
- 2) **Building or Enhancing a Coalition to Eliminate Viral Hepatitis, Part 2 (NASTAD, 2022)**
- 3) **Comprehensive Cancer Control Plans (CDC, 2021)**
- 4) **Global Hepatitis Elimination Task Force (Coalition for Global Hepatitis Elimination, 2022)**
- 5) **Hepatitis-HIV-STD-TB Joint Resources (Association of State and Territorial Health Officials, 2022)**
- 6) **Hep C State Policy Simulator (ChangeLab Solutions)** – Tool to help state health policy makers and practitioners make decisions regarding policy, strategy, and investments related to hepatitis C
- 7) **State Immunization Websites (Immunize.org, 2021)**

B. State-level Collaborations

Including grassroots advocacy coalitions, state-convened viral hepatitis committees, and other groups

- 1) **Alaska** – The Alaska Hepatitis Prevention Program
- 2) **Arizona** – Hep Free AZ
- 3) **California**
 - a. **California Hepatitis Alliance (CalHEP)**
 - b. **End the Epidemics: Californians Mobilizing to End HIV, HCV, and STDs**

4. IMPROVING VIRAL HEPATITIS PREVENTION, TREATMENT, AND OUTCOMES

- 4) **Florida** – HCV Free Florida
- 5) **Hawaii** – Hep Free Hawaii
- 6) **Illinois** – HCV Elimination Task Force
- 7) **Iowa** – Iowa HIV and Hepatitis Community Planning Group
- 8) **Indiana** – Zero is Possible
- 9) **Louisiana** – Hep C Free Louisiana
- 10) **Maryland** – Maryland Hepatitis Coalition
- 11) **Massachusetts** – EndHepC MA Coalition
- 12) **Michigan** – The Elimination Plan Stakeholder Group
- 13) **Missouri** – Missouri Viral Hepatitis Committee
- 14) **Nevada** – The Nevada Hepatitis Prevention and Control Program
- 15) **New Mexico** – End HepC-NM: A Collaborative Approach Towards Hepatitis C Elimination In a Resource Scarce Environment
- 16) **New York** – New York State Hepatitis C Elimination Task Force
- 17) **North Carolina** – NC Viral Hepatitis Task Force
- 18) **Oklahoma** – Ending HIV Oklahoma & Hepatitis Planning Council (OHHPC)
- 19) **Oregon** – Oregon Viral Hepatitis Collective
- 20) **Pennsylvania** – Hep Free PA
- 21) **Rhode Island** – RI Defeats HepC
- 22) **South Carolina** – South Carolina Viral Hepatitis Committee
- 23) **Tennessee** – End the Syndemic Tennessee
- 24) **Utah** – **Utah Hepatitis Coalition**
- 25) **Virginia** – Virginia Hepatitis Coalition
- 26) **Washington** – Hepatitis C Virus Elimination Coordinating Committee
- 27) **West Virginia** – Community Education Group
- 28) **Wisconsin** – The Wisconsin HIV and Hepatitis Statewide Action Planning Group
- 29) **Wyoming** – Wyoming Comprehensive Care and Prevention

4. IMPROVING VIRAL HEPATITIS PREVENTION, TREATMENT, AND OUTCOMES**Planning Alliance (CAPPA)****C. City/Regional Collaborations**

- 1) **Mohave County, AZ Hepatitis C Eradication Initiative**
- 2) **Hepatitis C Task Force for Los Angeles County, CA**
- 3) **Hepatitis C San Diego County, CA Initiative**
- 4) **End HepC SF, CA**
- 5) **Hep Free NYC**
- 6) **Hep C Free Allegheny, PA**
- 7) **The Hepatitis C Allies of Philadelphia, PA (HepCAP)**
- 8) **Houston, TX Viral Hepatitis Task Force**

5. IMPROVING VIRAL HEPATITIS SURVEILLANCE AND DATA USAGE

Accurate and timely surveillance data is necessary to ensure that policy and programmatic decisions are appropriate and directly responsive to the needs of communities. Section A – “National Viral Hepatitis Surveillance and Data Usage Documents and Resources” – is meant to help officials throughout jurisdictions consider how to update their surveillance systems and leverage surveillance data to inform programmatic and policy reform. This section also includes some national data resources. Section B – “Jurisdictional Viral Hepatitis Epidemiological Reports” – includes every current viral hepatitis epidemiological report for each jurisdiction of which Hep Elimination is aware, where a current report is defined as having been published in the last two years. Section C – “Jurisdictional Viral Hepatitis Data Dashboards” – includes every available state hepatitis dashboard of which Hep Elimination is aware, providing current information about the viral hepatitis epidemic in that state.

A. National Viral Hepatitis Surveillance and Data Usage Documents and Resources

- 1) [Widespread person-to-person outbreaks of hepatitis A across the United States \(CDC, 2022\)](#)
- 2) [AtlasPlus \(NCHHSTP, 2021\)](#)
